# VS-10MQ060NPbF

## **Vishay High Power Products**

## Schottky Rectifier, 2.1 A

- Small foot print, surface mountable
- Low forward voltage drop
- High frequency operation
- · Guard ring for enhanced ruggedness and long term reliability
- Meets MSL level 1, per J-STD-020, LF maximum peak of 260 °C
- Compliant to RoHS directive 2002/95/EC
- Designed and qualified for industrial level

#### DESCRIPTION

The VS-10MQ060NPbF surface mount Schottky rectifier has been designed for applications requiring low forward drop and very small foot prints on PC boards. Typical applications are in disk drives, switching power supplies, converters, freewheeling diodes, battery charging, and reverse battery protection.
