Argon ONE
The Most Versatile Raspberry Pi Case

FORTY

CLEAN STYLIZED DESIGN

Argon ONE is made for newbies, students, and young makers to get into computers, programming and electronics.

The sleek design of **Argon ONE** aims to complement existing fixtures and appliances inside your home whether may it be in your living room, bedroom, game room, or your workshop.

SLEEK ALUMINUM ENCLOSURE

Made with polished aluminum alloy and modern
Space Grey finish for stunning aesthetics and functionality.

PASSIVE AND ACTIVE COOLING

The case top acts as a passive cooling and a software controllable fan inside optimizes the temperature management and performance of the Raspberry Pi.
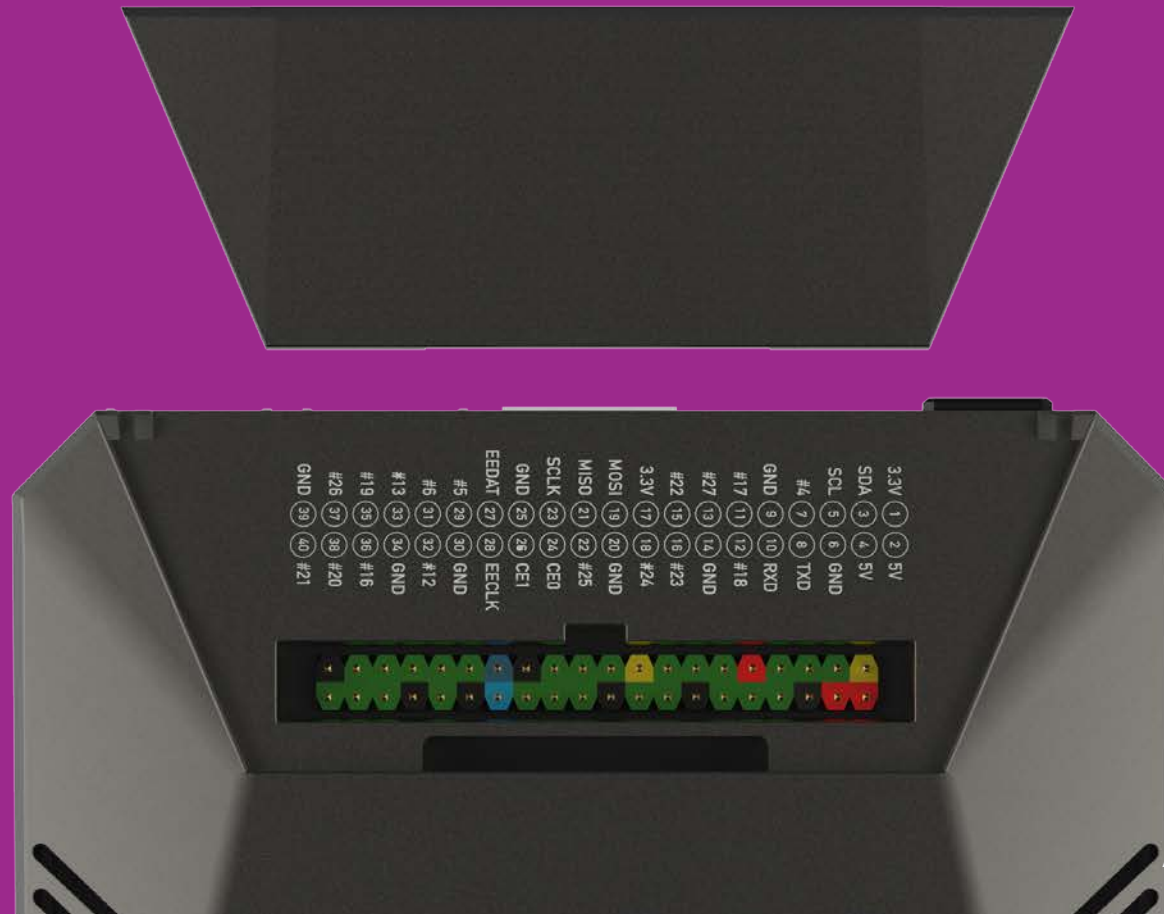

PROPER SYSTEM SHUTDOWN

Built in features of **Argon ONE** prevents file & SD card damage. Power ON button also functions as Safe Shutdown, Reboot, and Forced Power Off.
