

QI UNDERBODY CHARGER

Ideal for caravans, boats and motorhomes. The Qi charger allows for wireless charging of many current smartphones - by simply placing them on the charger. LEDs indicate the charging status.

The under-counter charger is fit for invisible installation under the worktop by means of screw terminals and a pre-installed Tyco plug.

FEATURES

- Wireless charging of all common smartphones thanks to Qi standard
- Low power consumption in stand-by mode
- The Qi chargers are fully functional in accordance with automotive requirements in the voltage range from 10.8 to 14.4 V.
- Optimal installation under work surfaces up to 13 mm thick

VARIANTS

ITEM	52763	60358
MODEL	WTS-E Qi T06 + Tyco connector	WTS-E Qi T06
INSTALLATION	with Tyco connector Nr. 180908	with open ends, tin-plated
CABLE LENGTH	200 mm	200 mm

TECHNICAL DATA

CHARGING STANDARD	Qi
OUTPUT POWER	5 W, 10 W (compatible 7.5 W)
CURRENT IN STAND-BY MODE	10 mA
NOMINAL INPUT VOLTAGE	12 V $\overline{=}$
INSTALLATION DIMENSION	Ø 80 mm, height: 13 mm
WEIGHT	100 g
OPERATING TEMPERATURE	-10 °C – +45 °C
STORAGE TEMPERATURE	-40 °C – +70 °C
COMPATIBLE	with most smartphones that support wireless charging
STANDARDS AND CERTIFICATIONS	CE, UKCA FCC RED, RoHS, REACH ECE-R10 Type Approval
