

HEAT SINK SET

for Raspberry Pi and other single-board computers

Our black aluminum heat sink set offers an optimal heat dissipation solution for a wide range of electronic applications. The set consists of one large and two smaller heat sinks, which are perfectly matched to the needs of different component sizes. The highly conductive aluminum material enables fast and effective heat dissipation, making this set an essential accessory for anyone who wants to protect their electronic devices from overheating. The pre-attached double-sided thermal adhesive tape is particularly practical, allowing the heat sinks to be installed quickly and easily without additional tools.

MAIN FEATURES

Color	Black
Functions	3 heat sinks for perfect protection in difficult temperature environments
Special features	Self-adhesive heat sinks High quality aluminum Universally applicable Simple assembly Passive cooling

FURTHER INFORMATION

Dimension (Large heat sink)	20 x 20 x 5 mm
Dimension (Small heat sinks)	8 x 8 x 4 mm
Weight	4 g
Item number	RB-Heatsink-B
Scope of delivery	1x large heat sink, 2x small heat sink
Customs tariff number	8473308000
EAN	4250236827988
